

Project Design Phase

Proposed Solution Template

Date: 26 September 2026

Team ID	_____
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	2 Marks

Proposed Solution Template

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1	Problem Statement (Problem to be solved)	Standard laptop procurement involves manual requests, repeated approvals, and delays. The project aims to reduce manual effort and streamline the ordering process.
2	Idea / Solution description	Use ServiceNow Flow Designer to automate standard laptop requests, approvals, task creation, notifications, and order processing through a defined workflow.
3	Novelty / Uniqueness	A standardized automated flow connects the request, approval, fulfillment, and notification steps, reducing repetitive manual activities and improving process consistency.
4	Social Impact / Customer Satisfaction	Faster and more transparent laptop procurement improves the employee experience, reduces waiting time, and helps IT teams handle requests efficiently.
5	Business Model (Revenue Model)	The solution supports organizations by reducing administrative effort and operational processing costs. It can be implemented as part of an enterprise IT service management solution.
6	Scalability of the Solution	The workflow can be extended to different laptop models, user groups, approval rules, departments, locations, and other standard IT equipment procurement requests.
